DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4 and 7-10, drawn to a package for an integrated circuit die, classified in class 174, subclass 52.4.
 - II. Claims 12 and 17, drawn to a leadframe, classified in class 257, subclass 666
 - III. Claims 22-26,28-30,32 and 33, drawn to a method of making integrated circuit packages, classified in class 438, subclass 106.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the integrated circuit die package can be connected used in a circuit by directly attaching contacts of the package to a substrate rather than connections using a leadframe. See MPEP § 806.05(d).
3. Inventions III and I, & III and II are related as process of making and subcombinations of the product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the integrated

circuit die package can be made wherein the tabs are formed integrally with the package are instead of cutting the frame off to form them.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Mr. Parsons on Dec. 6, 2000 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carmelo Oliva whose telephone number is (703)305-0835. The examiner can normally be reached on Monday-Thursday 7:00-4:30 with alternate Fridays off. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kristine Kincaid can be reached on (703)308-0640.
